

"I would be in my grave but for Dr. Miles' Heart Remedy"

I could not walk across the house and the doctors I had told my husband I had consumption. A lady told me to try Dr. Miles' Heart Remedy. I sent and got \$5.00 worth and I got better. I weighed 115 pounds. I now weigh 180, and I owe my health to Dr. Miles' Remedies."

Mrs. Fred Wiltse, R. F. D. No. 13, Allen, Mich.

Most people who use Dr. Miles' Heart Remedy have the same experience Mrs. Wiltse had, they get better. A medicine that enables a weak heart to regain lost strength without depressing effects is the best to use.

The first bottle is guaranteed to benefit or your druggist gives back the price.

TWO HUNDRED AND FIFTY STORIES.

And every story a good one. They are entertaining, but that is not all you can say about them. You know there is hardly a periodical published that is not full of time-wasting stories, but not a single story in The Youth's Companion is a time-waster. Take the stories of C. A. Stephens. It would be hard to pick out one from which you cannot learn something useful and yet entertaining.

Some of The Companion stories refresh your knowledge of geography; some tell you the mysteries of chemistry, some reveal the secrets of forestry and of general farming. They cover a wide range. They are chosen with an eye to the possible liking of every member of a Companion family—stories of vigorous action and stirring adventure for boys, stories of college life and domestic vicissitudes for girls, stories that range all the way from sheer drollery to deep seriousness for men and women. There are no stories quite like those in The Companion.

If you are not familiar with The Companion as it is today, let us send you sample copies and the Forecast for 1916.

New subscribers who send \$2.00 for 1916 will receive free a copy of The Companion Home Calendar for 1916, in addition to all the remaining 1915 issues from the time the subscription is received.

THE YOUTH'S COMPANION, Boston, Mass.

AN OLD RESIDENT.

We are in receipt of a letter from Geo. H. Day, who first came to Crossville in 1859 and bought 700 acres of land from Jas. Scott. The breaking out of the war soon after spoiled all his plans and sent him to New York where he lived in Brooklyn until 1878, when he came here and went into the sheep business, but the low price of wool made the venture unprofitable and he returned to Brooklyn in 1880. He has since lived there and is now an inmate of the Home for Aged Men. He is in his 92nd year and is enjoying reasonable health.

He remembers Crossville when there were only six families here. He is remembered by some of the older residents as a fine Christian gentleman and one worthy of the highest esteem of all who knew him. He has seen Brooklyn, N. Y., grow from a city of thirty thousand to over a million. His relatives are all dead and in spite of his lonely condition he still remains cheerful and says he is only waiting for the Master to call him home. Those who knew him when here will send kind words of sympathy and wish for him freedom from suffering until the Master shall take him to an eternal home where all will be joy.

Rev. Robert Hall, who was assigned to this charge by the M. E. church, south, arrived last week and is now actively at work and preached his first sermons in Grassy Cove Sunday and Sunday night.

Friday afternoon the 8-month son of Mr. and Mrs. J. T. Horn was taken to Nashville for an operation for a flexure of the bowels, that being the condition as diagnosed by Drs. Reed and Lewis. On arrival there several other doctors were called in consultation and the unanimous decision was that an operation was the only hope for saving the life of the little one. The operation was performed and, while successful, grave fears were entertained for the recovery of the child. News was received here yesterday afternoon that the child was still alive and there were bright hopes for its final recovery. When the operation was performed it was found that the appendix had become affected and that was removed at the same time. The flexure had not inflamed the bowels to a very alarming extent and as that was removed the fears were then that the child could not stand the shock of the operation. News was received that the child, died at two o'clock this morning and the body will be brought home today. The deepest sympathy of the community goes out to the bereaved parents.
